Westbrook Institute of Technology
Placement Policy

The Placement Cell helps final-year students find jobs and internships. This policy explains who can take part in campus placements and the rules that students must follow.

Registration

Final-year students must register for placements on the placement portal by 31 August of their final year. There is no registration fee. Students who do not register by this date cannot attend campus placement drives.

Placement Cell

The Placement Cell is headed by the Training and Placement Officer and supported by student placement coordinators from each department.

Eligibility for Placements

To be eligible for campus placements, a student must meet all of the following conditions:

• A minimum CGPA of 6.5 at the time of registration.

• No standing arrears (failed courses that are not yet cleared) at the time of registration.

• At least 75% attendance in the pre-placement training programme.

Some companies may set higher eligibility criteria, such as a CGPA of 7.5 or above. In such cases, the company's criteria apply in addition to these rules.

Pre-placement training

Pre-placement training on aptitude, coding and soft skills is conducted in the 6th semester.

Offers and the One-Offer Policy

Once a student receives a job offer through campus placement, the student is considered placed.

Dream companies

A dream company is a company that offers an annual CTC (cost to company) of Rs. 10 LPA (lakhs per annum) or more. A placed student may apply only to dream companies, and only if the new offer is at least 1.5 times the CTC of the current offer.

Maximum offers

A student can hold a maximum of 2 offers through campus placements. After receiving a second offer, the student must choose one offer within 7 days.

Internships

Students may do a 6-month internship in the 8th semester with approval from the Head of the Department and the Placement Cell. The internship must be related to the student's branch.

An internship-only offer does not count as a placement. However, a pre-placement offer (PPO) received at the end of an internship is counted as a placement offer.

Students on a 6-month internship must still complete their final-year project review and any remaining coursework as required by the department.

Conduct and Penalties

Students must follow the dress code (formal wear) and arrive at least 30 minutes before every placement drive.

Penalties

• A student who registers for a drive but does not attend it without informing the Placement Cell is barred from the next 2 placement drives.

• A student who rejects an offer after accepting it is removed from the placement process.

• Misconduct during a company's selection process is reported to the Disciplinary Committee.

Questions about this policy can be sent to the Placement Cell through the placement portal.
