Westbrook Institute of Technology
Student Handbook 2026–27

This handbook explains the academic rules that apply to all undergraduate students of Westbrook Institute of Technology. Students are expected to read it at the start of every academic year. If a rule in this handbook changes during the year, the change will be announced on the student portal and by email.

About the Institute

Westbrook Institute of Technology is a private engineering institute offering B.Tech programmes in Computer Science, Electronics, Mechanical and Civil Engineering. The Director of the Institute is Dr. Meera Raghavan. The Dean of Academics, Prof. Arun Kumar, is responsible for all academic rules described in this handbook.

Academic Calendar and Registration

The academic year is divided into two semesters. The odd semester runs from July to November and the even semester runs from January to May. A summer term in June is used only for re-examinations and bridge courses.

Course registration

Students must register for their courses on the student portal during the first week of each semester. Registration is confirmed only after the faculty advisor approves the course list.

Late registration is allowed for up to 7 days after the registration week with a late registration fee of Rs. 1,000. After this period, a student who has not registered cannot attend classes for that semester.

Credits

A normal semester load is 20 to 24 credits. Students who wish to register for more than 24 credits need written approval from the Dean of Academics.

Attendance Policy

Regular attendance is compulsory. Every student must have a minimum of 75% attendance in each course to be allowed to write the final examination of that course.

How attendance is calculated

Attendance is calculated separately for every course using the formula: Attendance (%) = (number of classes attended / number of classes conducted) x 100. Theory classes and laboratory sessions of the same course are counted separately. Attendance is updated on the student portal every Friday.

Medical condonation

A shortage of up to 10% attendance (that is, attendance between 65% and 75%) may be condoned on medical grounds. The student must submit a medical certificate to the faculty advisor within 5 working days of returning to classes. Students with attendance below 65% cannot be condoned for any reason.

Shortage of attendance

A student whose attendance in a course is below 75% (after any condonation) is debarred from the final examination of that course and must re-register for the course in a later semester.

Examinations and Passing Criteria

Each theory course is evaluated through continuous assessment and a final examination.

Component	Weight
Continuous Assessment Test 1 (CAT 1)	15%
Continuous Assessment Test 2 (CAT 2)	15%
Assignments and quizzes	10%
Final examination (3 hours)	60%

Passing criteria

To pass a course, a student must score at least 40% in the final examination and at least 50% overall (continuous assessment and final examination together).

Re-examination

Students who fail a course may write a re-examination in the June summer term. The re-examination fee is Rs. 1,500 per course. The continuous assessment marks are carried forward to the re-examination.

Hall tickets

Hall tickets are issued on the portal one week before the final examinations only to students who meet the attendance requirement and have paid all fees.

Grading System and CGPA

Letter grades are awarded based on the overall percentage in each course:

Grade	Marks (%)	Grade points
S	90 – 100	10
A	80 – 89	9
B	70 – 79	8
C	60 – 69	7
D	55 – 59	6
E	50 – 54	5
F (fail)	below 50	0

How CGPA is calculated

The Cumulative Grade Point Average (CGPA) is calculated as: CGPA = sum of (course credits x grade points) / sum of course credits, for all courses passed so far. For example, a 4-credit course with grade A (9) and a 3-credit course with grade B (8) give a GPA of (4x9 + 3x8) / 7 = 8.57.

Classification

A student who completes the programme with a CGPA of 8.5 or above and without any arrears is awarded First Class with Distinction. A CGPA of 6.5 or above is First Class.

Academic Integrity

The Institute expects all students to submit their own work and to acknowledge every source they use.

Plagiarism

All project reports and theses are checked with plagiarism software. If the similarity index is above 20%, the report is returned and the student must resubmit it within 10 days. Repeated plagiarism is reported to the Academic Integrity Committee.

Use of AI tools

Students may use AI tools for assignments and projects only if the course instructor allows it and the use is clearly declared in the submission. Undeclared use of AI tools is treated as plagiarism.

Malpractice in examinations

A student caught copying or using unauthorised material during an examination will receive zero marks in that course and will be referred to the Disciplinary Committee, which may suspend the student for one semester.

Leave and On-Duty

Applying for leave

Students must apply for leave through the student portal. Leave of up to 2 days is approved by the faculty advisor; longer leave must be approved by the Head of the Department. Approved leave does not count as attendance.

On-duty (OD)

Students who represent the Institute at official events such as hackathons, sports meets or conferences may apply for on-duty. Approved on-duty days are counted as present. A student can claim a maximum of 15 on-duty days per semester.

Break in study

A student may take a break in study (leave of absence) for personal or medical reasons for a maximum of 2 semesters during the entire programme, with approval from the Dean of Academics.

Library, IT Services and Grievances

Library

The central library is open from 8:00 AM to 10:00 PM on weekdays and from 9:00 AM to 5:00 PM on Saturdays. It is closed on Sundays and public holidays.

Students can borrow up to 4 books at a time for 14 days. Books can be renewed once if no other student has reserved them. A fine of Rs. 5 per day per book is charged for late returns.

IT services

Campus Wi-Fi is available in all academic blocks and hostels. Students log in with their student portal username. Problems should be reported to the IT help desk in the Main Block, room 104.

Grievances

Students can raise academic or administrative grievances by email to the Grievance Cell. The Grievance Cell will respond within 7 working days.
